## CAMINO SAFETY IMPROVEMENT PROJECT ON EL DORADO U.S. HIGHWAY 50

### WHAT IS BEING PROPOSED

To construct safety improvements on U.S. Highway 50 in the Camino area, east of the City of Placerville, from Still Meadows Road to Upper Carson Road. The project proposes to install a concrete median barrier that will restrict left turn movements at at-grade intersections, widen outside shoulders to standard width, and install several acceleration/deceleration lanes that will help reduce collisions. In addition, a new undercrossing will be constructed to allow access between the north and south sides of Highway 50.
